RE: PLEASANTON TRUCK AND EQUIPMENT, 3110 BUSCH ROAD, PLEASANTON

Dear Ms. and Messrs. Molinaro and Macchiano:

The Alameda County Department of Environmental Health (ACDEH), Environmental Protection Division, recently contracted with the City of Pleasanton ("City") for oversight of environmental investigations associated with leaking underground storage tank (UST) sites in the City. We are actively attempting to evaluate several outstanding UST cases to determine what, if any, additional environmental work may be necessary before "case closure" may be granted.

For your information, your case has been transferred into the ACDEH Local Oversight Program (LOP). LOP agencies are funded through monies provided by the Federal Trust Fund, established to reimburse local agencies for oversight of UST leak cases, among other uses. You will soon be receiving a notice advising you of this process.

ACDEH has become aware that a release from the diesel UST system was discovered during the removal of two USTs in February 1989. The City is not aware whether any additional assessment work (e.g., installation of ground water monitoring wells, etc.) occurred subsequent to tank removals. The City, consequently, has requested ACDEH to evaluate this case.

To facilitate our efforts, please submit any technical documents you may have which illustrate the status of investigations or other related activities which may have occurred at the subject site since February 1989. Please submit any such documents within **45 days** of the date of this letter.

Please call me at 510/567-6783 should you have any questions.

Sincerely,

Scott O. Seery, CHMM
Senior Hazardous Materials Specialist

Ms. and Messrs. Molinaro and Macchiano
