

Aug, 5, 1995

Returned call to Rebecca Seaman (733-5388).  
Spoke to her mother(?) and left a  
msg. that the 8/1/96 letter was  
sent to her to inform her of status  
of case & re: their monitoring well (NW-1)  
County's request for the destruction of

If she would like more information  
about the particulars of the case, please  
call me back.

6-2-94

4:00 PM

TO: Mr. Hertlein

FROM: Scott SEERY, ACD/ETH

I received your phone message today,  
and attempted to call you ~ 3:50 PM.

Your FAX machine has taken over again!

I'll be here until 5:00 sharp, and  
will not return until Monday, June 6.

Please call me @ 90/271-4530.

6-1-94

11:15

TO: Henry Hertlein

FROM: Scott SEERY, Alameda County

I've attempted to contact you by phone this morning, but it appears that your phone is attached to your facsimile machine.

I should be in the office this afternoon.

510/271-4530

Oct 10, 1996

Spoke w/ Mr. Hertlein today re: status of well destruction. He said they have rec'd 3 bids now & plan to go ahead ASAP. He anticipates we will receive the report w/in 2-3 weeks.

Call back "1" if no word.

MEMO to file:

Nov. 27, 1990

I spoke with Jon Hom today regarding The Oct. 25, 1990 Supplemental from Fred Devine. We spoke about the "actual" numbers designated for each well. Apparently the sampling contractor, NET, gave the wells one set of #'s, JCH another. I wondered if there had been some confusion with transposing of the data as a result of the conflicting well designations. I asked that he double check the data.

We both agreed that ~~that~~ the gradient info is not what we had expected: we both figured that ground water flow would have continued toward the former creek bed (since covered and culverted); the data suggests that, instead of flowing as noted above towards the south (parallel to Lk Chabot Rd.), it now is flowing towards the east (towards Lk. Chabot Rd.).

I also told Mr. Hom that I am willing to compromise on monthly sampling (for 1st yr), but not on monthly H<sub>2</sub>O level measurements for the 1st year.

Mr. Hom will get back to me later this week

MEMO to file :

2-5-90

A call from John C. Horn Assoc., Inc. raised some concern for this company to perform the environmental assessment work at this site. The engineer calling had questions regarding certain points raised in the Jan. 31, 1990 correspondence from this office. It became evident that this person had no real clue as to how one proceeds with well development, sampling, and surveying of well points to an established benchmark.

I "suggested" vigorously that they employ yet another party to handle (at least) the initial aspects of this investigation as it applies to sampling, well developing and other site assessment protocol.

MEMO to file:

6-29-90

I spoke with John Hon of John C. Hon?  
Assoc. re: The PSA report for the referenced site  
He said the report will be ready next week

SOS

8-3

I spoke w/ Fred Devine (457-0220) re:  
the submittal of the well installation report  
and subsequent reports which document sampling  
activities at the noted site. I expressed  
concern that reports have yet been received by  
this office. Apparently, wells were installed  
in Feb. 1990, and sampled again recently.  
He said that he would contact Jon Hon  
immediately.

Memo to file:

8-10-89

I spoke with Fred Devine regarding his site assessment proposal submitted under transmittal dated 7-31-89. I explained that this was unacceptable and that before any approval could be given, a complete site assessment proposal adhering closely to RWQCB guidelines must be submitted. He said that he will urge Jon C. Holm Assoc. to work on the submittal in an expeditious manner.

SOS

I also reminded him that a check for \$333 is also required before the plan will be reviewed.

---

10-24-89

I called the office of Fred C. Devine Asso. regarding site cleanup. I left a message indicating that bldg. permits will be revoked unless something is submitted for review soon!
