Re: Monitoring Well Abandonment  
Former Chevron U.S.A. Service Station 9-2621  
7667 Amador Valley Boulevard  
Dublin, California

Dear Ms. Chu:

This letter, prepared by Pacific Environmental Group, Inc. (PACIFIC) on behalf of Chevron U.S.A. Products Company (Chevron), documents the completion of well abandonment activities at the site referenced above. This work was performed in accordance with the Alameda County Health Care Services Agency letter, dated December 13, 1995, and PACIFIC's *Case Closure Recommendation Report*, dated August 25, 1995.

Monitoring Wells MW-1 through MW-6 were abandoned on February 27, 1996 by drilling out each well to total depth. The resulting boreholes were backfilled from the bottom up with neat cement to grade, in accordance with Bulletin 74-90, California Well Standards, California Department of Water Resources, June 1991. Drilling was performed by MDE, a state-licensed well driller, and observed by a PACIFIC geologist. Permits for well abandonment were approved by, and are on file at, Zone 7 Water Agency (Permit No. 96021). Encroachment for well abandonment activities located within the City of Dublin right-of-way were approved by, and are on file at, the City of Dublin Public Works Department (Permit No. 96-15).

Well debris resulting from the abandonment activities will be temporarily stockpiled onsite, pending laboratory analysis and will be removed from the site by Chevron's disposal contractor, IWM, and disposed of at an appropriate landfill.

March 1, 1996

Please call our office at (916) 858-2350 if you have any questions or comments regarding this letter.

Sincerely,

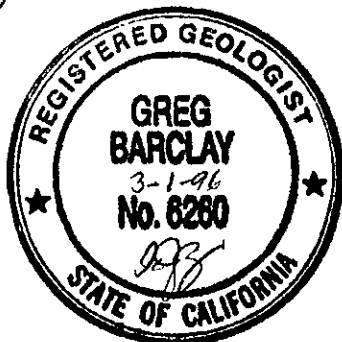

**Pacific Environmental Group, Inc.**
