RE: STID 3721 - Marina Village

Ms. Nickson stated that she would be the contact person for this site. She stated that a report was prepared in the past regarding the two tank removals on Tynon, but apparently it was not sent to Alameda County Health Department.

She also stated that she believes that soil was excavated from the 15,000-gallon ^{underground storage tank} tank-pit on Marina Village Parkway, after sampling of tank-pit identified contamination in the soils. She will try and get more information on the tank pulls & work conducted subsequent to the removals.
