May 28, 1993
File 2198.17 (UST)

Mr. Harry Buettner
13966 Tullock Road
Jamestown, California 95327.

Subject: UST case closure for 22117 Meekland Avenue, Hayward, California.

Dear Mr. Buettner:

The Alameda County Department of Environmental Health has submitted a report which summarizes the investigation and cleanup of hydrocarbon pollution resulting from leaks associated with a 1000 gallon gasoline, a 1000 gallon diesel and a 550 gallon waste oil Underground Storage Tanks at the above mentioned site, and recommends that the case be closed. The Regional Board staff reviewed the report and concur with the recommendation. Therefore, based on the available information for the above site, it appears that further investigation and cleanup of the hydrocarbon pollution is not necessary at this time. However, further work may be required if conditions change or a water quality threat is discovered at the site.

Please contact Sumadhu Arigala at (510)-286-0434, if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven R. Ritchie", is written over a horizontal line.

Steven R. Ritchie,
Executive Officer.
