FROM: Frank Goldman

SUBJECT: Hill Lumber Co. Drum Disposal

SUMMARY:

Attached are the results for the Hill Lumber Co., well abandonment soil cuttings. The cutting were drummed and then sampled two weeks ago. The soil is essentially clean.

We would like to dump the contents of the drums onsite. The disposal location will be in the same area as for past drum disposal activities (i.e. the exposed soil pit @ the southwest corner of the property).

Please let us know ASAP.

P.S. Will Mr. Hill get a final Closure Letter?
