

6-13-00 Joe @ 510-286-4495 identified himself  
as the new Cal Trans contact

3-15-2000

Johnny Walker → 510-286-6127  
did not ~~recognize~~ recognize Randy Rosseli  
name. He ~~said~~ said he maybe a new  
person at the location & wanted to  
know what unit or Dept. he works for.  
I left a msg for Carlos Lopez @  
916-653-3548 to contact me.

3-17-2000

left a mess. with Randy Rosseli @  
510-286-4495 to contact me to  
verify his exact mail address.

2-2-99

Met the following persons at the site:

Don Indermill, A.E. Schmidt Environmental  
Carlos Lopez, Cal Trans  
Kathy Gill, Cal Trans

Cal Trans contracted with Schmidt Environmental to complete the underground tank @ base for the gas and diesel U.G.T. that were removed in Jan. '98. The original consultant, Brodby Environmental was hired. ~~see~~ Brodby took soil samples during the UGT removal, but did not document the locations. The excavation ~~was~~ has been backfilled with clean fill. ~~the~~ Schmidt was contracted to advance 6 borings to collect soil and groundwater samples. G.W. was at 1 foot. ~~we did decide~~ we agreed no soil samples were necessary, and to ~~conduct~~ <sup>collect</sup> only water samples. Four samples were going to be taken ~~at~~ <sup>around</sup> the excavation at opposite ends of the tanks and to sample outside the excavation area to verify if contamination had migrated outside the excavation area.

2-3-99

Herman Gomez, City of Oakland said he did not take any pictures of the UGT removal. He also said there was alot of product in in excavation/groundwater because the UGT was in bad shape.

1-28-99

Steve Russell of Cal Trans said they fired Bradley Environmental from this job. Bradley work was never completely completed. Cal Trans has contracted with another consultant to complete the sampling, and a report will be submitted in approximately 3 weeks. On Tuesday 2/2/99, additional samples will be collected to be included in the final closure report.

Russell said he will be transferred to another project in San Leandro, but the contact the following persons for site information

Carlos
