

## Schultz, Robert, Env. Health

---

**Subject:** Roger Woodward & Jim Gribi, RO2432  
**Entry Type:** Phone call  
**Start:** Wed 7/21/2004 10:00 AM  
**End:** Wed 7/21/2004 10:30 AM  
**Duration:** 30 minutes

Conference call with Donna Drogos, Jim Gribi and Roger Woodward  
County emphasized need for progress on the site

- explained that workplan was deemed non-responsive because rationale for two borings was missing
- no cross-sections or hydrogeologic evaluation was presented supporting the location
- Mr. Gribi argued that previous investigation at the site was discussed in background section and shows that groundwater gradient is known
- Mr. Woodward was upset about the change in course of the site with Jan 2003 letter, site was headed toward closure, he thought, and now it's back in need of characterization
- Donna stated that this issue was discussed many months ago, and that site can not be closed given current understanding of the contamination
- two borings proposed by Gribi is a limited scope of work and accordingly requires more support via evaluation and presentation of existing data
- Gribi and Woodward will confer and will get back to ACEH on plan of action for the site
