**Reference: Request for Extension of Fourth Quarter 2015 Groundwater Monitoring Report**

Former Chevron-branded Service Station 92029, 890 W MacArthur Boulevard,  
Oakland, CA (Case #: RO00002438)

Dear Mr. Detterman,

On behalf of Chevron Environmental Management Company (Chevron), Stantec Consulting Services Inc. (Stantec) respectfully requests an extension to submit the Fourth Quarter 2015 Semi-Annual Groundwater Monitoring Report for former Chevron-branded service station 92029, which was located at 890 MacArthur Boulevard, Oakland, Alameda County, California (the Site). In a letter dated October 29, 2015, Alameda County Environmental Health (ACEH) requested a Semi-Annual Groundwater Monitoring Report be submitted on January 15, 2016.

Fourth Quarter 2015 groundwater monitoring is currently scheduled for December 29, 2015, and with a standard turnaround time from the laboratory, we do not expect to receive laboratory data until at least January 13, 2016. Therefore, Stantec requests a brief extension to submit the groundwater monitoring report to ACEH by February 12, 2016 to allow sufficient time to receive the laboratory data, prepare the report, and complete our internal reviews.

Regards,

**Stantec Consulting Services Inc.**
