Carryl and Travis,

As discussed in the meeting this morning, ACEH is in agreement that an extension to June 29, 2015 is appropriate and will provide sufficient time to allow additional data, figures, and etc. to be incorporated in to the final site investigation report as discussed and requested in the meeting. This additional data expands the scope of work somewhat, but is anticipated to more fully define the site within the context of the Low Threat Closure Policy, and progress it toward a likely path to closure for site residential redevelopment.

If you have questions, please let me know.

Travis,

Please use this response to document ACEH concurrence with the extension request.

Hi Mark,

I heard your voicemail with tentative agreement on a 4/22 meeting at 10am. We'll hold that time pending your confirmation with Dilan. We'd also like to request a 2-week extension on that report, which is currently due 4/17, to 4/30 so that we can incorporate potential changes from our discussion.

Thanks,

Travis L. Flora
