Mr. John Jang  
California Regional Water Quality Control Board  
San Francisco Bay Region  
2101 Webster Street, Suite 500  
Oakland, CA 94612

Subject: No Further Action Letter, Former Narou Nursery, 1500  
Thrush Avenue, San Leandro, CA 94578

This Department has reviewed reports submitted by GeoPlexus, Inc. for the subsurface investigation at the subject site. The reports document the investigation of hydrocarbon contamination at the site of a former underground gasoline storage tank.

After review of the supporting documents related to the subsurface investigation this Department recommends a no further action status to this investigation.

Enclosed for your reference is the GeoPlexus, Inc. site closure report dated January 14, 1993 and revised figures for depth to water and well casing elevations dated January 21, 1993.

If you have questions related to this matter please contact me.

Sincerely,

Robert Weston  
Hazardous Materials Specialist

File No. 2198.17

Mr. Robert Howell  
Silicon Valley Companies  
851 East Hamilton Avenue, Suite 120  
Campbell, CA 95008

Dear Mr. Howell:

SUBJECT: Case Closure for 1500 Thrush Avenue, San Leandro,  
Alameda County

The Alameda County Health Agency (ACHA) has submitted a letter dated February 22, 1993, along with a January 14, 1993 Geo Plexus, Inc. closure report which summarized the investigation and the cleanup of hydrocarbon pollution resulting from one underground gasoline storage tank, and recommends that the case be closed. Regional Board staff have reviewed this report and concurs with ACHA's recommendation. Therefore, based on the available information for the above site, it appears that further investigation and/or cleanup of the soil and groundwater pertaining to the subject underground storage tank are not necessary. Further work could be required if conditions change or a water quality threat is discovered at the site.

If you have any questions, please call John Jang of my staff at (510) 286-0554.

Sincerely,

Steven R. Ritchie  
Executive Officer

Subject: Former Tank Site, Request for Closure, 1500 Thrush  
Avenue, San Leandro, CA 94578

This Department is in receipt of your request for no further action on the property currently referred to as the "Narou Nursery Property", site of a former underground gasoline storage tank. After review of the supporting documents related to the subsurface investigation this Department will recommend a no further action status to this investigation.

The recommendation will be submitted to the Regional Water Quality Control Board (RWQCB) for formal action and notification to the responsible parties.

If you have questions related to this matter please contact me.

Sincerely,
