Re: **Fuel Leak Case No. RO0002460**
Mobil/ Givens Investment Company, 6398 Telegraph Avenue, Oakland, CA

Dear Sir or Madam:

I simply do not understand the requests in your 7/15/11 letter. The gas tank was removed from this property about 1985. The city and/or county required soil aeration. Everything done was done, as far as we remember, in accordance with all requirements.

Then new construction was done, with permits. It seems you are now requiring new tests. This is outrageous. This is an unnecessary cost. We wish that you review this matter and close this file.

It can't be that this matter now over 30 years old should be resurrected. Certainly you folks must have something more pressing on which to spend your time.

Very truly yours,

Robert J. Zweben
