**Subject:** Meeting Followup for James River Corp (RO2468; 2101 Williams St, San Leandro)  
**Attachments:** RO2468\_MEETING\_2013-01-07.pdf

Carey,

It was good to meet you and Tom at the meeting this morning. As we discussed, I have revised the deliverable date on Geotracker for the (draft) Data Gap Work Plan and focused SCM to February 21, 2014. Based on the results of the meeting, it is our understanding that that additional data, including additional groundwater monitoring events, will be collected in the interim and the data will be used to support the SCM for the site. To clarify, the draft document is intended for review and comment prior to a meeting which will be scheduled at a future point, but is currently anticipated to be shortly after February 21<sup>st</sup>.

I have also attached a copy of the meeting sign-in sheet for today.

Should you have questions, or need clarifications, please let us know.
