**Subject:** 3890 Depot Road, Hayward (AAA Truck; RO2499) Contact Information

Mr. Singh,

I wanted to establish contact with you in order to continue movement of the environmental case associated with the subject property. Mr. Weiss has indicated that you had committed to continuing the progress of the case. In order to do this, Alameda County Environmental Health (ACEH) will need funds in order to oversee the case. Good progress has recently been made on the case by Mr. Weiss's consultants, and it generally appears that new state regulations may allow the case to move forward and likely close with fairly limited additional data collection. The collection of this data was discussed in a meeting with Mr. Weiss and his consultants on June 5th. I understand that you have committed to using the same consultants as Mr. Weiss used; this would enable you to use the knowledge and site understanding they have recently developed in working for Mr. Weiss and seems to be a reasonable way to proceed.

If you would forward your address and other contact information you believe we might need, ACEH will send a letter requesting the funds mentioned above (estimated at \$4,000). This will allow ACEH to refund remaining excess funds to Mr. Weiss. As we have previously communicated with Mr. Weiss, the more effective your consultants are in communicating their plan for work and the rationale behind the data collection, the less time ACEH would need to spend in attempting to determine these reasons; they very much are key to environmental investigations. This is important as the hourly rate for ACEH is \$204, much more than your consultants.

I look forward to working with you to move this case to closure.  
Should you have questions, please let me know.
