FACSIMILE COVER SHEET

To: David Weiss / Shawn Munger

From: ESA CW

2 pages total

Date: 10/31/01

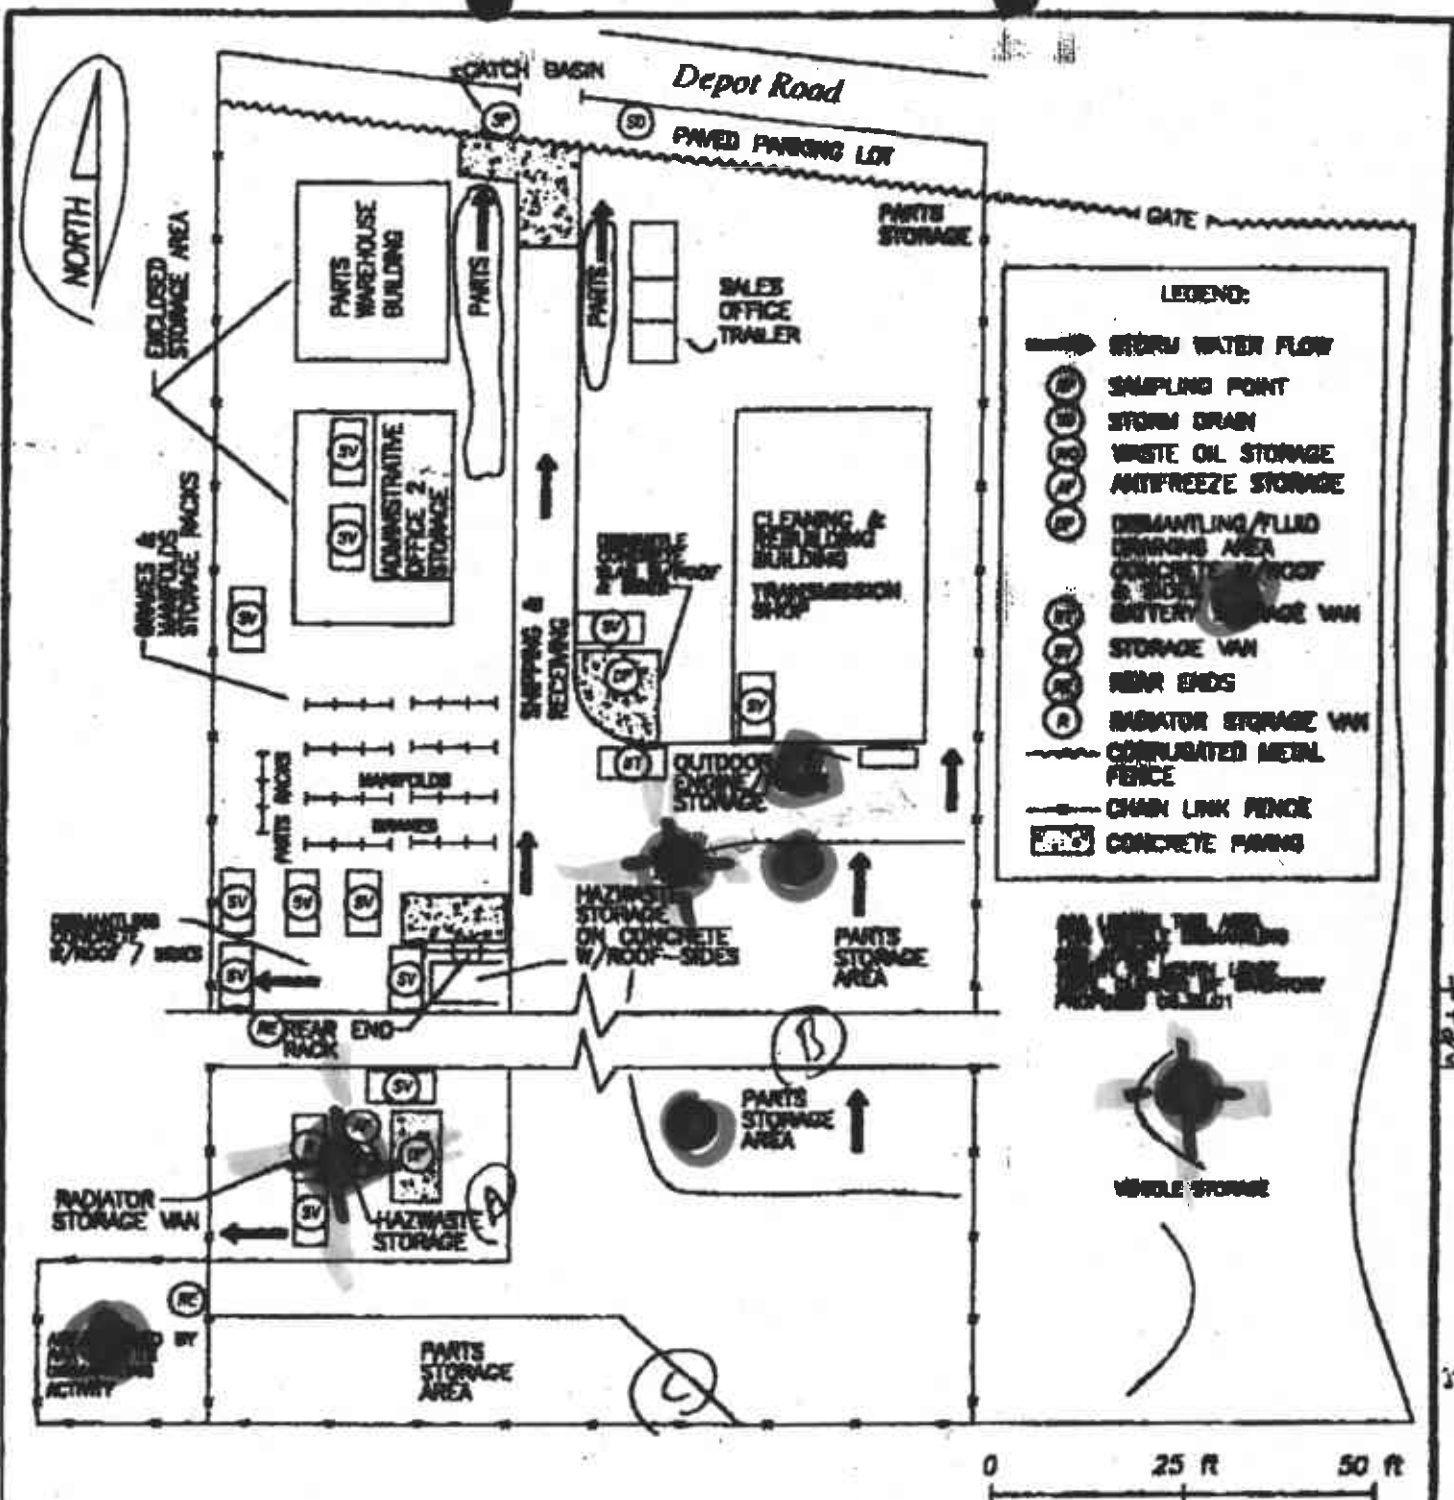

Notes: The large black dots (8-total) are locations
for soil samples. Note that 3 of the locations are
also for collection of grab groundwater samples.
Soil samples should be collected at ~ 1 foot bgs, and at
3 feet bgs. Samples should also be analyzed for Total oil
and grease. Use a silica gel cleanup.
