

## Drogos, Donna, Env. Health

---

**Subject:** Steve Burke, owner 925-949 W. Grand, Oakland  
**Entry Type:** Phone call

**Start:** Fri 7/19/2002 2:21 PM  
**End:** Fri 7/19/2002 2:21 PM  
**Duration:** 0 hours

Discussed Phase 1 & 2 reports he submitted.

Appears his site has TPH and solvent contamination. Reviewed data from 805 W. Grand (closed LOP) & active Arco 889 W. Grand. Not apparent that contamination is from these sources. Although subject site is d/g of 805 w. grand max TPHG at 805 was 46,000ppb in pit water w/ 720 ppb in d/g grab GW.

Other source? Any USTs on his property, not investigated.

Solvents from former dry cleaners on property.

No evidence of USTs on his site, not listing in LOP program at this time.

Pending listing as SLIC site with City of Oakland.

Steve Burke, property owner  
444-4560 cell 325-8749

has buyer for property, has environmental reports showing contamination on his site  
a closed site at 903 W. Grand is adjacent to his site, their USTs were 20-30' away  
He has never had USTs, and has owned property for a couple of years  
There do not appear to be other sites in area.

He has a phase 1 & 2 he will send over.

ACEH will review reports, data from his site & data from adjacent closed site, to see if it appears to be from an off-site source or not.

He will send
