Paula,

Your request to monitor the new wells semi-annually in the second and fourth quarters is approved.

Regards,

Barbara Jakub, P.G.

**Subject:** RO#2515 Sampling Schedule

Hi Barb,

The monitoring wells at Former Exxon 70234 (3450 35th Avenue, Oakland, RO#2515) have been monitored and sampled for four consecutive quarters now (first through fourth quarters 2009). ERI is evaluating this site for a semi-annual sampling schedule. The concentrations and groundwater flow direction have been consistent at the site over the course of the past year. It appears that maximum concentrations occur during the fourth quarter, which is consistent with the maximum concentrations at the adjacent ConocoPhillips site. TRC is monitoring the adjacent ConocoPhillips site semi-annually during second and fourth quarters. ERI proposes reducing monitoring and sampling at the former Exxon site to semi-annual during the second and fourth quarters and continuing concurrent monitoring with the adjacent site.

Let me know if you concur with this request and give me a call if you would like to discuss.

Thank you,  
Paula
