Shell site at 318 S. Livermore

called Lee on 4/6 re. recent QMR - no analysis for 1,2-DCA

I reminded him that our letter dated 12/20/04 identified 1,2-DCA as a COC, and that our letter dated 1/21/05 requested that sufficient data be presented to show that 1,2-DCA concentrations will achieve WQO w/in a reasonable time frame

he may have BTS resample the site, he will check in with debbie arnold
