Dear Mr. Hill:

This is a notice of an enforcement referral for the subject site. Site Responsible Parties are non-responsive to Alameda County Environmental Health (ACEH) requests and are recalcitrant. The site has accumulated an extensive series of Notice of Violations from ACEH. As a consequence, ACEH is referring this site to the San Francisco Bay Regional Water Quality Control Board for further actions.

Site Background

Three gasoline USTs were removed and confirmation soil samples yielded concentrations up to 4,300 mg/kg TPHg and 20 mg/kg benzene. Wells MW-1 to MW-3 were installed and groundwater concentrations up to 59,000 µg/l TPHg and 13,000 µg/l benzene were detected. The Hayward Fire Department transferred the case to ACEH in May 2003. A Notice of Violation (NOV) was issued in June 2003. A late letter was issued in May 2004; a response was not been received. On July 2009 and January 2011 ACEH issued NOVs for lack of Geotracker compliance (site claiming); a response has not been received. The lateral and vertical extent of contamination is undefined and contamination extends offsite beneath a residential neighborhood which may include residential wells.
