Hello Tom,

Your request for an extension for report submittal from December 15, 2010 to March 15, 2011 has been noted and accepted. However, the submittal will be submitted past the LOP's assigned due date. Please note that in the event enforcement actions are pursued by the LOP for any of the BP/ARCO cases, delinquent submittal trends may be considered.

Sincerely,

Paresh C. Khatri

Ms. Drogos:

It is my understanding that Mr. Paresh Khatri is no longer working on LOP sites and has referred his case correspondence to you until a replacement is made. Therefore, I am sending this you request in his absence.

On September 16, 2010 Atlantic Richfield Corporation (ARC) and Broadbent & Associates, Inc. (BAI) received a *Monitoring Well Destruction and Landowner Notification* letter indicating that the above referenced Site (ACEH RO #2565) is approved for case closure. This letter also requested that a *Well Destruction Report* be submitted to ACEH by December 15, 2010. BAI has been working with ARC and BAI subcontractors to complete the well destructions at the Site in a timely manner. However, due to ARC's new safety program and work approval process the initiation of field work has unfortunately been delayed by approximately 8-12 weeks.

Therefore, BAI requests that the original *Well Destruction Report* date of December 15, 2010 be extended to March 15, 2011.

A response to our request is appreciated.

Tom Sparrowe, PG
