Subject: Corrective Action Plan For Fuel Leak Case No. RO0002569 and GeoTracker Global ID T0600177342, Earthgrains Baking Company, Inc., 955 Kennedy Street, Oakland, California, 94606

Dear Mr. Siegel:

Thank you for the recently submitted document entitled, "Corrective Action Completion Report," dated April 19, 2011, which was prepared by PSC Industrial Outsourcing, LP (PSC) for the subject site. Alameda County Environmental Health (ACEH) staff has reviewed the case file including the above-mentioned report for the above-referenced site. PSC has completed an over-excavation and based on soil and groundwater sampling, has recommended no further action for the site. ACEH generally concurs with PSC that active remediation is completed, however, in order to evaluate remedial effectiveness, post remediation monitoring must be conducted.

We request that you address the following technical comments and send us the technical reports requested below.

**TECHNICAL COMMENTS**

1. **Post Remediation Monitoring** – As mentioned above, in order to evaluate remediation effectiveness, post remediation groundwater monitoring is necessary. Since the zone of contamination that was remediated was shallow, groundwater monitoring wells must be installed with screened intervals that intersect this shallow zone only, and do not exhibit submerged screens. Monitoring well should be installed in locations within the source area(s) and down-gradient to adequately monitor the contaminant plume. Please note that demonstrating plume stability, as well as demonstrating that concentrations of contaminants will ultimately achieve cleanup goals, are some of the criteria necessary to achieve case closure consideration.

**TECHNICAL REPORT REQUEST**

Please submit technical reports to ACEH (Attention: Paresh Khatri), according to the following schedule:

- **July 23, 2011** – Monitoring Installation Work Plan
- **Due within 30 Days of Sampling** – Quarterly Remediation Report (4<sup>th</sup> Quarter 2010)
- **Due within 30 Days of Sampling** – Quarterly Remediation Report (1<sup>st</sup> Quarter 2011)
- **Due within 30 Days of Sampling** – Quarterly Remediation Report (2<sup>nd</sup> Quarter 2011)
- **Due within 30 Days of Sampling** – Quarterly Remediation Report (3<sup>rd</sup> Quarter 2011)

Thank you for your cooperation. Should you have any questions or concerns regarding this correspondence or your case, please call me at (510) 777-2478 or send me an electronic mail message at [paresh.khatri@acgov.org](mailto:paresh.khatri@acgov.org).

Sincerely,

Paresh C. Khatri

## Responsible Party(ies) Legal Requirements/Obligations

### REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

### ELECTRONIC SUBMITTAL OF REPORTS

ACEH's Environmental Cleanup Oversight Programs (LOP and SLIC) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program FTP site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and [other](#) data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to Spills, Leaks, Investigations, and Cleanup (SLIC) sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website for more information on these requirements ([http://www.swrcb.ca.gov/ust/electronic\\_submittal/report\\_rqmts.shtml](http://www.swrcb.ca.gov/ust/electronic_submittal/report_rqmts.shtml)).

### PERJURY STATEMENT

All work plans, technical reports, or technical documents submitted to ACEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached document or report is true and correct to the best of my knowledge." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

### PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6735, 6835, and 7835.1) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately registered or certified professional. For your submittal to be considered a valid technical report, you are to present site specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this fuel leak case meet this requirement.

### UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, later reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

### AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.
