Entry Type: Phone call
Company: PSC Environmental Services

Start: Mon 3/24/2008 1:56 PM
End: Mon 3/24/2008 2:11 PM
Duration: 15 minutes

Categories: Teleconference

Discussed site with Earthgrain's consultant PSC Environmental Services. On the phone were John Carrow, Scott Jander, and Paul Anderson. Main point of call was to address my comments regarding the possibility of limited UST Cleanup Fund reimbursement for excavation since the proposed excavation was not compared to any other remedial alternatives (i.e. FS/CAP). They proposed to put the excavation on hold and prepare an FS/CAP to evaluate the most cost-effective cleanup alternative, since they wish to receive Fund reimbursement. John said they may need a due date extension to prepare the FS/CAP and will send me an email if that is the case.

Can he proceed self directed? In USTCF, risk of non-payment.
Transfer case, no.

I did brief review of WP proposing addition investigation locations to define extent.
Okay to proceed. Southern end recc. Staggering sample collection points at southern transect by adding addtl boring.

Northern points? Okay, source location uncertain, recc addtl samping points based on field observations to define.

Need x-section through UST excavation to depict release scenario for SCM.
Although clay, UST pit extended through clay to sandy below

Then okay to proceed with work. Only approving addtl locations based on brief review.

He wants to do source removal ASAP by excavation & pump GW during excavation. Free product present multiple borings.

This investigation work will assist in determining excavation limits.

Agree with this interim remedaiotn plan for source removal. Anticipate able to approve this interim remediation work when plan finalized & submitted & reviewed. Re: MW installation will want CW to perform more detailed review of site before approve. He agrees to this, RP wants to remove source ASAP & approval of this investigation & the future excavation plan are the near term proposals

955 Kennedy, RO2569
Suspect case is being reassigned, who is cw

02/09/07, 1040a, lft msg

02/09/07, 305p, Tom Neeley, ETIC
Did investigation sent report 12/21/06,
Fast track to get things done,
Excavation in summer, need some add'l characterization needed.
Bakery production schedule drives work.

SWI in March

Told him will log site, Don just left & I have to prioritize his caseload to address high priority sites. This site is not an immediate high priority. Will have to get back to him or RP with anticipated review schedule, do not have timeframe at this point.

work performed, want to talk abt work

11/15/05, 1013a, Tom Neeley, Who is CW?

11/15/05, Scott Jander, Phillips Services walked site,

Dispenser upgrade in 2003

Earlier this year UST removal, with contamination, RP said he has not from us.

This was a case in 2003, any subsequent activities would be part of that case. URF would have been sent to

OFD & we get copy, I don't recall seeing copy

He will make sure report & URF sent to us, recc he upload into FTP site.

He will followup
