Steven,

I represent Coliseum Storage Associates, and received a copy of your letter dated July 24 stating that the site at 5200 Coliseum Way had not been "claimed" in the GeoTracker database. Coliseum Storage Associates settled a lawsuit a number of years ago, in which Millennium Holdings, Inc. agreed to perform further site investigation and cleanup, to the extent necessary, at the property. Bureau Veritas has been the consultant working with the Regional Board; I suggest that you contact Don Ashton at Bureau Veritas about your request. Thanks very much.
