Duration: 0 hours

Phone call with Jeremy Smith of AEI. Currently excavating utility trenches within shopping center. AEI is screening soils and will collect samples as needed. They began installation of piping but stopped to avoid damage during construction. His question was regarding reuse of soils. Jeremy indicated there was no discussion in Site Management Plan regarding reuse of soils. Provided that there was no evidence of contamination and no discussion in Site Management Plan, soil reuse back in area where soil was excavated was acceptable.
