Jerry

This is an email to confirm that I spoke to you on the phone today about a one-week extension for delivery of the Site Investigation Report for the Francis Plating site at 751-785 Street, Oakland, California. The report was scheduled for submission on 28 February 2012. We have completed the fieldwork and would like an additional week to prepare the report. If agreeable, we would like an extension of the scheduled delivery to 6 March 2012. Thank you for your consideration of this request.
