Subject: Request for Monitoring Well Destruction Report for Fuel Leak Case Fuel Leak Case No. RO0002601 and GeoTracker Global ID T06019716048, Allied Engineering Corporation, 2421 Blanding Avenue, Alameda, CA 94501

Ladies and Gentlemen:

Alameda County Department of Environmental Health (ACDEH) is considering the above referenced site for potential case closure. This case is also under the oversight of the San Francisco Bay Regional Water Quality Control Board's (SFRWQCB) Site Cleanup Program (SCP) (Case Number 01S0055). The SFRWQCB initially communicated an interest in retaining groundwater monitoring wells MW-1, MW-2, and MW-3; however, ACDEH was recently informed by the SFRWQCB that groundwater monitoring wells MW-1, MW-2, and MW-3 should be destroyed. Since the public notification period ended on April 20, 2018 and no comments were received, to complete the closure process, ACDEH requests destruction of the three wells. Upon receipt and approval of the requisite document, ACDEH will close the case and issue a Remedial Action Completion Certificate.

Due to the residual contamination on site, the site would be closed to existing use with site management requirements that require further evaluation if the site is to be redeveloped in the future.

Monitoring Well Destruction and Waste Removal Activities

ACDEH requests that you initiate the well destruction permitting process upon receipt of this letter by contacting Alameda County Public Works Agency at (510) 567-6791 to obtain the necessary permits.

Please prepare a report documenting well destruction and waste removal activities. The *Well Destruction Report* must include a summary table of well construction details, well destruction permits, and signed profile and disposal documentation of the waste (both well decommissioning and remaining site waste) according to the following schedule:

Technical Report Request

Please submit the following documents to Geotracker according to the following schedule:

- **June 22, 2018** – Well Destruction Report
File to be named: RO2601_WELL_DCM_R_yyyy-mm-dd

These actions are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party
