Denise Tsugi, DTSC

PHC levels we use, consistent w/RWQCB ESLs?
Yes, as a guide not cleanup levels.

Levels she cites are high, why no TPHG in source when TPHG in GW, she does not know. TPHG 22k ppb, TPHMO 25k ppb

RP & consultant don't want to do work, saying DTSC too stringent. DTSC issuing work requests that also meet RWQCB & ACEH requirements & will say so in next directive letter.

Told her we originally had site, open active case before DTSC took case. RP did not want to do work, argued over all work requests. Initial characterization work deficient.
