**Start:** Tue 8/4/2009 4:00 PM  
**End:** Tue 8/4/2009 5:00 PM  
**Duration:** 1 hour

August 4, 2009

Received call from Bill Kavicky @ 3:55pm They purchase site after previous owner received case closure; only at that point. There was a metals issue (Cr, Pb, Zn that was remediated), and then a UST issue, (soils treated on 550 gal UST, received NFA from county). Ron Mayo is 90+ years of age, so is not really available.

Asked for a chance to review site and see what I could determine; will call back tomorrow.

August 5, 2009

Leave VM for Bill at 707.430.4601 Since they have not been responsible for investigations to date suggest they not claim it for awhile and hopefully I'll have a chance to review it before any NOV goes out; however, unfortunately I /we need to prioritize our UST case load with especially high risk sites for now and do a case review on the Geotracker website. It may take some time for me to look at older potentially closeable sites.
