Hi Grover, Hi all,

Please use this email as approval of your request; it is a reasonable and cost effective way to manage the joint site investigation for the former bulk plant, common to both sites. It should allow better placement of future soil bores or wells.

Best,

Mark Detterman

Subject: Addendum Schedule, SLIC Case RO0002621, 5885 Hollis Street, Emeryville

Dear Mark,

As we discussed at our meeting and in our subsequent telephone conversation, we believe we can more effectively respond to your comments on our 12 July 2010 Monitoring Well Installation Work Plan after reviewing and incorporating information to be collected during Delta Consultants' soil and groundwater investigation at the neighboring Conoco property. We understand this investigation will be completed by 31 January 2010. We therefore request you revise your Technical Report Request due date for the Addendum from 10 January 2011 to 11 February 2011.

Regards,

Grover Buhr, P.G.
