Receive phone call from Phil Smith, T&R in regards to closure review; 9:25 – 9:45am

To discuss status of review; Wareham is going through next refinancing cycle and wants to get best deals available for all properties. The environmental issue is only outstanding issue for this parcel. Let him know it's on my short review list, but last two months I've been slammed with state requests so I've had to refocus on those issues and have not been able to get to this site. Those are abating, but I'm still working through those. It'll be towards the end of this month before I can get there, so some sort of answer by February (?), but closure is a multi month process, so it's not an instant answer. He says likely Rich Robbins may bend our ear, once he reports back.
