Brand,
Normally we would ask that the report be uploaded to Geotracker; however, in this situation, I think it better to limit the confusion to just the county website.
Thanks,

Mark -

Regarding the recent meeting in your office about the subject SLIC case between yourself, Frank Poss and Bill Schmitt; I understand that papers were discovered in the subject SLIC Case file that do not pertain to the subject case. Based on our review, it appears that these papers were misfiled – are actually regarding a different case in Dublin, California. Please refer to the attached letter for details (*RO2664_Filing Error Memo_2016-10-12*) which has also been uploaded to the County's FTP site. Please let me know if you would also like the letter uploaded to the State GeoTracker website – if so I will have to file an RP Agent authorization form (could take a few days).

Please reply to let us know if you have any questions or need anything further. Thank you.
