**Subject: Concurrence With Your August 21, 1995, Proposal to
Abandon On-Site Monitoring Wells at
21 & 24 Cannery Court, Hayward**

Board staff has recently completed the review and evaluation of your proposal dated August 21, 1995, regarding the abandonment of certain monitoring wells on the above property. My apologies for the delay. We concur with your proposal to abandon the monitoring wells since it appears that the sources of pollution originate off-site.

We also concur with your proposal to retain the four specified monitoring wells on-site for future groundwater assessment. You are requested to submit a work plan (attention: Eddy So) detailing the procedures and schedule for the proper abandonment of all the other wells. We request that your workplan also indicate how the remaining wells will be kept in good condition, your security plan to protect the wells from unauthorized access (e.g. padlocks, etc.), and information on how these wells will be protected during possible future site development.

Please contact Eddy So at (510) 286-4866 if you have any questions.

Sincerely,

Loretta K. Barsamian
