DEPARTMENT OF ENVIRONMENTAL HEALTH Hazardous Materials Division 80 Swan Way, Rm. 200 Oakland, CA 94621 (510) 271-4320

Mr. Butch Kelley Cal Mat Co P.O. Box 636 Pleasanton, CA 94566

Subject: Additional Funds to Oversee Cleanup at Former Cal Rock Plant, 501 E. El Charro Rd, Pleasanton 94566

Dear Mr. Kelley:

As you know this office is overseeing the site cleanup of hydrocarbon impacted soils at the above referenced site. However, the initial deposit of \$1,500.00 is almost depleted. Please submit an additional \$1,000.00 to reinstate your account and fund this Office's oversight tasks on your project. Please bare in mind, any and all monies remaining in your account after the completion of the project will be refunded to you.

Please contact me at (510) 567-67621 with any comments on this letter.

Sincerely,

eva chu

Mr. Don Kahler Jamieson Co. P.O.Box 850 Pleasanton, CA 94566-0872 DEPARTMENT OF ENVIRONMENTAL HEALTH
State Water Resources Control Board
Division of Clean Water Programs
UST Local Oversight Program
80 Swan Way, Rm 200
Oakland, CA 94621
(510) 271-4530

Subject: PSA for 501 El Charro Rd, Pleasanton, CA 94566

Dear Mr. Kahler:

I have completed review of the case file for the above referenced site. When a 10,000 gallon diesel underground storage tank (UST) was removed in July 1992, soil samples collected in the sand backfill, at 15' below ground surface, exhibited up to 12,000 parts per million total petroleum hydrocarbons as diesel (ppm TPH-D). Another soil sample was collected 7' below the bottom of the sand fill, and exhibited 150 ppm TPH-D. Clearly, an unauthorized release of petroleum products has occurred at this site.

At this time, additional investigations are required to delineate the extent and severity of soil and groundwater contamination resulting from the fuel release. Such an investigation shall be in the form of a Preliminary Site Assessment, or PSA. The information gathered by the PSA will be used to determine an appropriate course of action to remediate the site, if deemed necessary. The PSA must be conducted in accordance with the RWQCB Staff Recommendations for the Initial Evaluation and Investigation of Underground Tanks, and Article 11 of Title 23, California Code of Regulations. The major elements of such an investigation are summarized in the attached Appendix A.

The PSA proposal is due within 45 days of the date of this letter. Once the proposal is approved, field work should commence within 60 days. A report must be submitted within 45 days after the completion of this phase of work at the site. Subsequent reports are to be submitted <u>quarterly</u> until this site qualifies for RWQCB "sign off." All reports and proposals must be submitted under seal of a California Registered Geologist, Certified Engineering Geologist, or Registered Civil Engineer.

It is unclear whether the stockpiled soil has been disposed of properly. Copies of bills of lading should be submitted to this office for review. Also, the enclosed Underground Storage Tank Unauthorized Release (Leak)/Contamination Site Report should be completed and returned to this office within 15 days of the date of this letter.

Mr. Don Kahler

re: 501 El Charro, Pleasanton

June 30, 1994

Please be advised that this is a formal request for technical reports pursuant to Title 23, CCR, Section 2722(c). Any extensions of the stated deadlines, or modifications of the required tasks, must be confirmed in writing by this agency.

Should you have any questions about the content of this letter, please contact me at (510) 271-4530.

Sincerely,

eva chu
