Dear Mr. Carrington:

The Administrative Conditional Use Permit, issued by the City of Dublin Planning Department, for the subject site is contingent on the submittal of a Hazardous Materials Business Plan (HMBP) to this Department. A revised HMBP was requested by this Department in order to fulfill the requirements of the California Health and Safety Code Chapter 6.95.

This Department received the HMBP submitted by American Xtal Technology on December 2, 1994. The plan has been reviewed and with revisions is now acceptable to this Department.

If you have any questions or comments on this issue please contact me at (510) 567-6781.

Sincerely,

Dear Jeff:

The Alameda County Environmental Protection Division staff would like to express their appreciation to you for your assistance in the development and delivery of the generator inspectors training workshop. Your informal presentation style provided useful information and also helped to set the group at ease and encourage questions and discussion of important issues. Thanks for helping us to make it a success. Best of luck to you in your new endeavors.

Sincerely,
