Subject: Krusi Park, Alameda, CA

Dear Mr. Murphy:

In response to your request for a "no action letter" from this Department for the above referenced property, all the pertaining documents were reviewed and the following decision regarding closure has been made.

Environmental investigations were conducted on the property in February 1994, April 1994, June 1994 and in January 1995. Based on the results of the investigation submitted to this Department, the site/park does not pose a threat to public health and no further action is required. However, the site may be re-evaluated in conjunction with the San Francisco Regional Water Quality Control Board if groundwater quality becomes an issue of concern. If you have any question, call me at (510) 567-6764.

Sincerely,

Madhulla Logan
Hazardous Materials Specialist
