Disc w/ Bob & DD

① DG Transcript

1) Cells w/ P ② deep since submerged

2) Site Phase I Bayport
Oak walk

3) SNK - DG GW

Regional Geology

from Medline letter

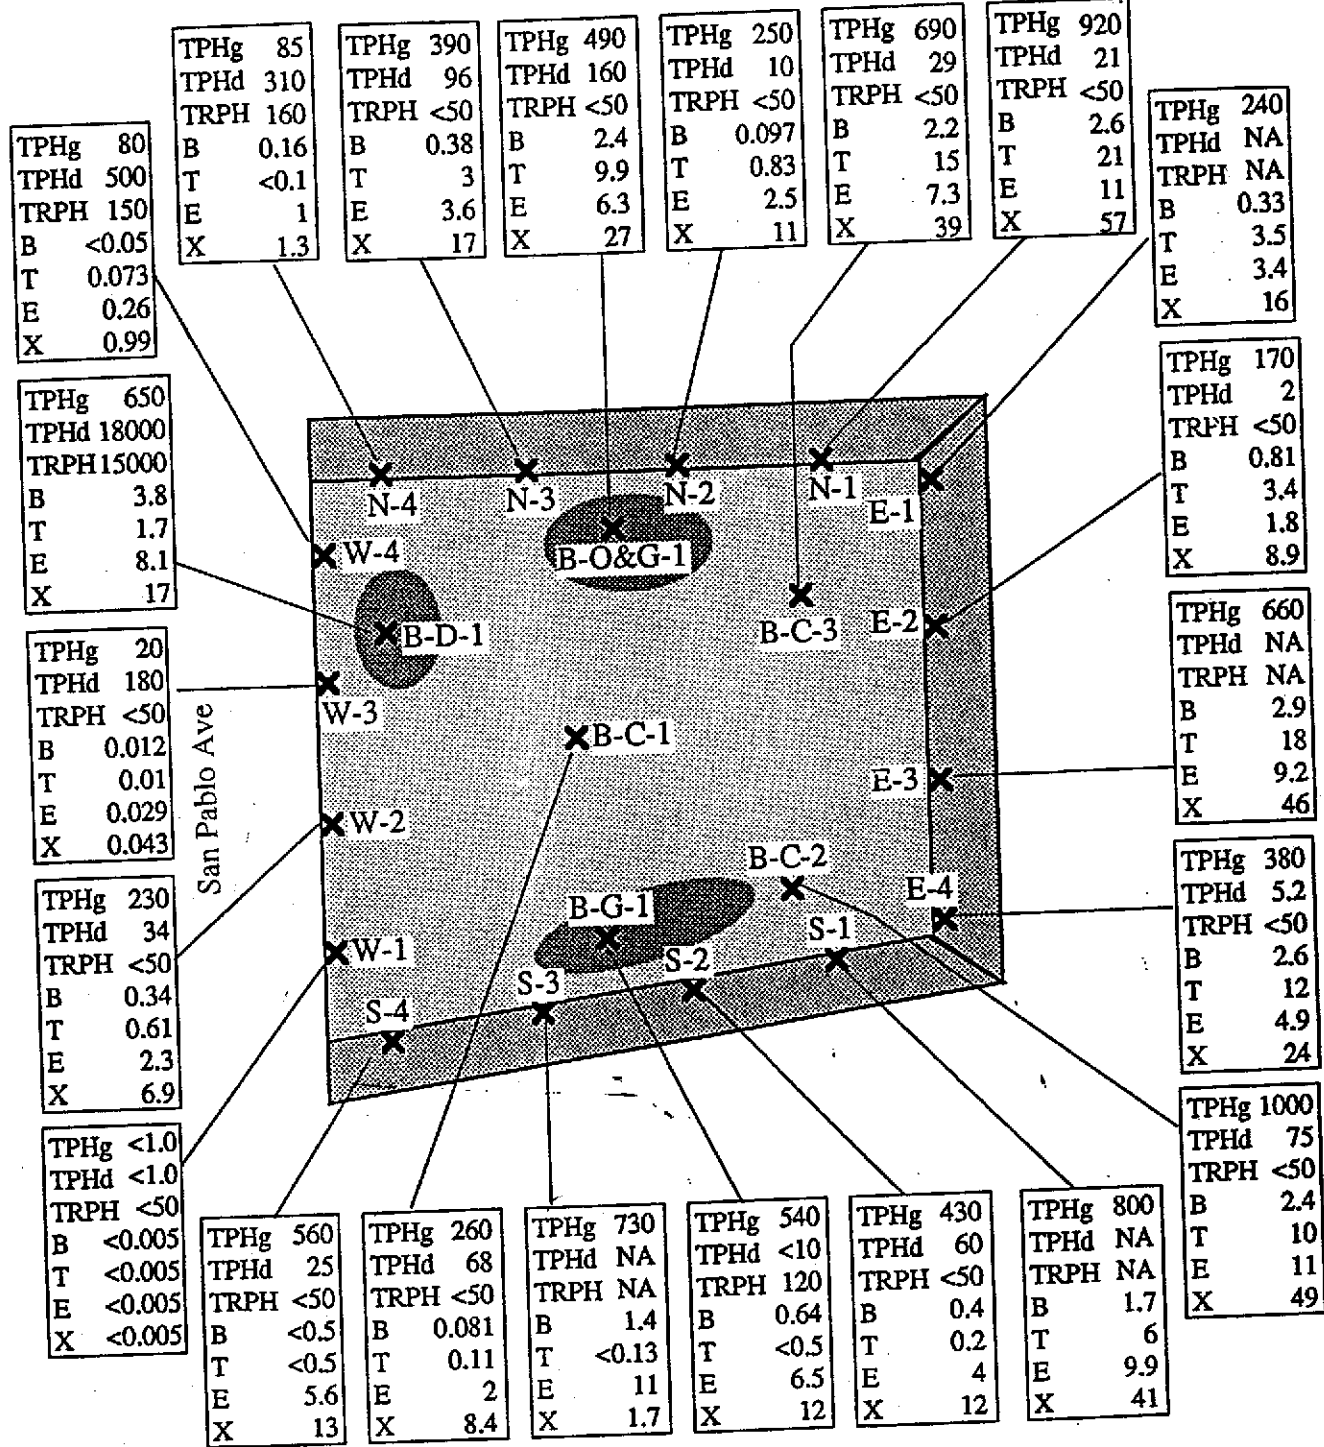

Write up for each site

Medline

1) Equilibrium ΔH - the potential P - like bonded

2) Texas - ΔH - Equilibrium

Will be a ΔH on the impact the
to the ΔH .

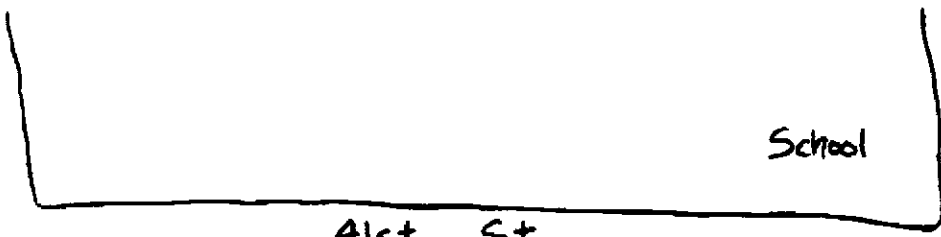

TPHg = total petroleum hydrocarbons as gasoline
 TPHd = total petroleum hydrocarbons as diesel
 TRPH = total recoverable petroleum hydrocarbons

B = benzene
 T = toluene
 E = ethyl benzene
 X = xylenes

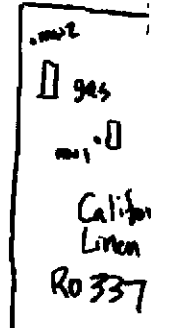

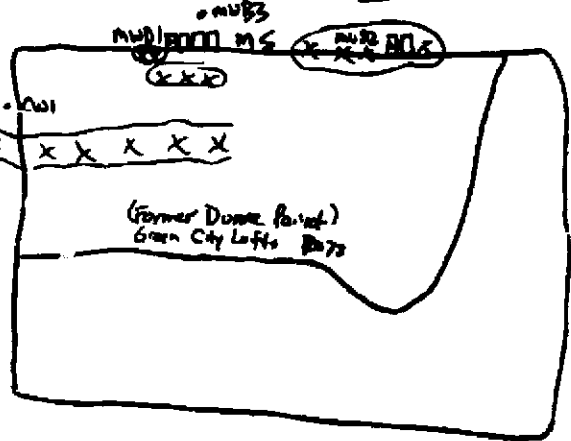

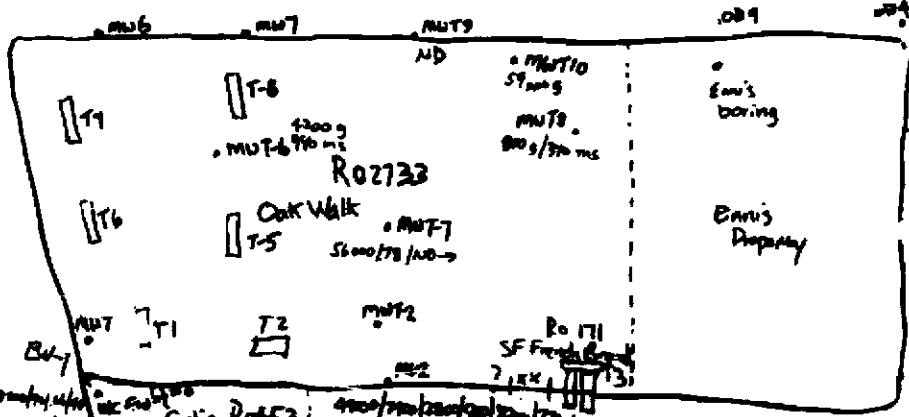

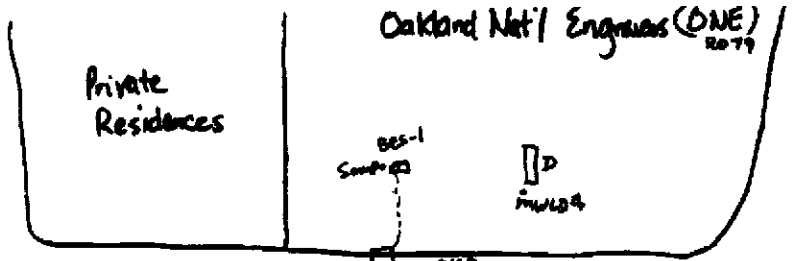

Soil samples on side walls were collected 6-in above the bottom floor

Unit of Concentration: mg/kg

Project No. 941114NA	CITY OF EMERYVILLE REDEVELOPMENT AGENCY	SOIL SAMPLING LOCATIONS & ANALYTE CONCENTRATIONS	Figure 4
