Schultz, Robert, Env. Health

Hi Bob,

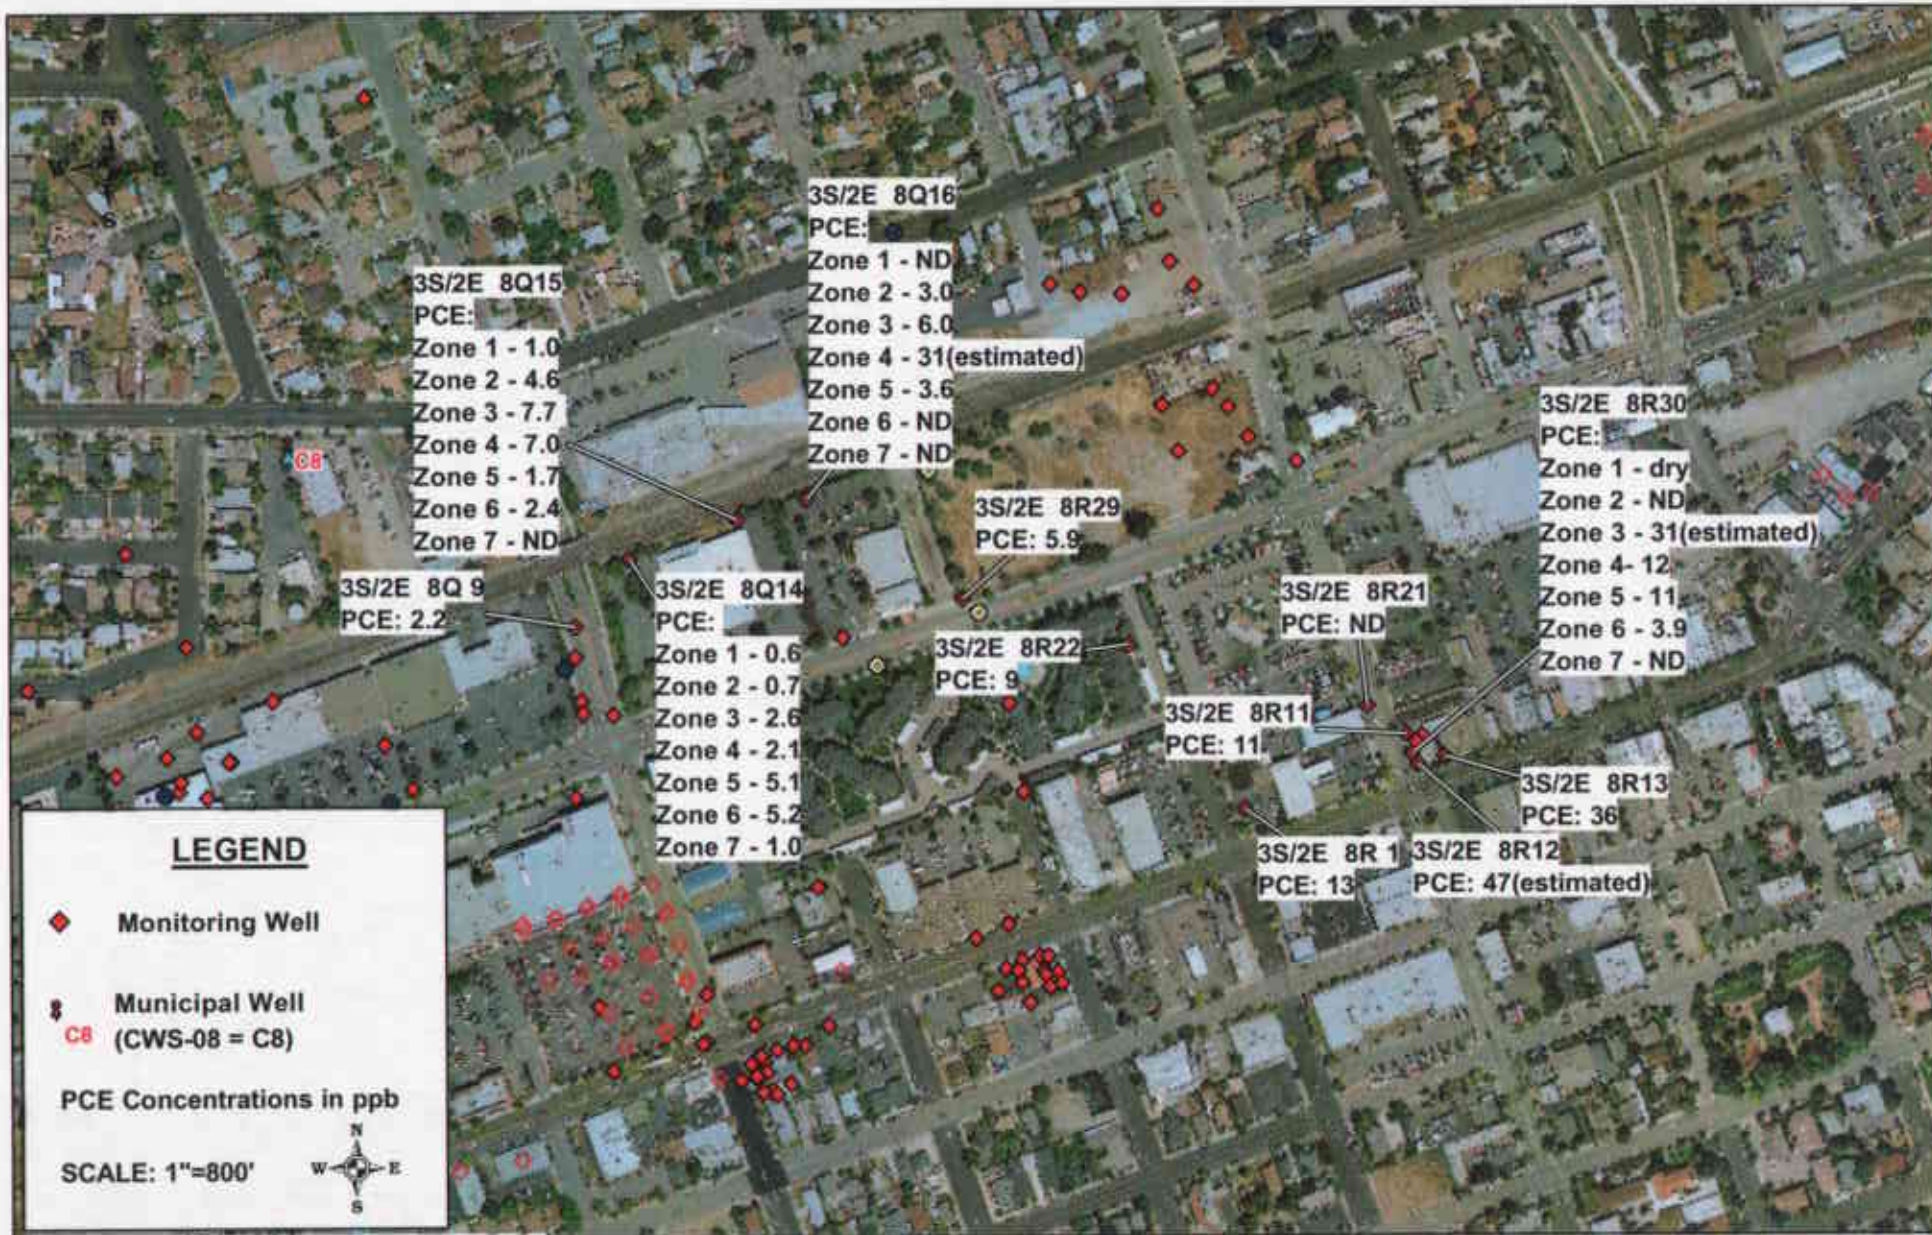

I got the PCE data for the B&C Mini Mart wells. I've attached the data table and a map showing the data.

I noticed that you had sent some stuff over via QIC. We recently were told that our QIC code is now 90201.

I'll give you a call and we can go over the data.

Colleen

Comments

- All samples exceed 14 day holding time requirements marginally. 3/24/05 analysis represents diluted sample analysis following initial run on 3/18/05
- Several samples have unidentified peaks. When an applicable analyte was detected only on one detector, data was rejected
- As positive values are relatively high, false data is unlikely as reported
