**End:** Tue 10/7/2008 3:48 PM  
**Duration:** 48 minutes

Discuss site with RWQCB; Cherie McCaulou and Mary Rose Casa.

Call to discuss letter RWQCB received from AEI regarding case. Cherie will forward letter

Present ACEH's position regarding residual contamination in the tank pit. Biodegradation was recommended as possible mechanism for decreased concentrations, without supporting data. RWQCB says that over-excavation was restricted by ACEH inspector. Cannot find any discussion in tank removal to support this statement.

No formal closure request submitted by RP.

ACEH will prepare letter to RP and discuss our concerns with AEI's conclusion
