Received a call from Peter Schaefer of Conestoga-Rovers & Associates (CRA) re RO2745 - Shell Station on Webster St., Alameda. Mr. Schaefer was calling to update me on the implementation of items in the ACEH Directive letter dated September 19, 2013. He indicated that CRA could not mobilize in time to conduct a GWM event coordinated with the down gradient former Unocal Station as our lead time was too short. Mr. Schaefer also commented that CRA would need an extension to the deadline for the Draft Work Plan and SCM.

I approved coordinated GWM at the Shell and Unocal site be started 1<sup>st</sup> Qtr 2014. I also mentioned that we had met with Unocal reps and property owners for the Unocal site the previous Friday and at that meeting discussed having a joint meeting with Unocal and Shell to coordinate the field investigations. I told Mr. Schaefer to not work on the Draft Work Plan and SCM until after the meeting with Unocal.
