Attention: Mr. Lowell Miller

Subject: Addendum to Groundwater Study Report
Mill Springs Park Apartments (formerly Livermore
Superblock)
Livermore, California

Dear Mr. Miller:

This letter confirms our April 10, 1989 telephone conversation, and presents agreed changes to the groundwater monitoring schedule presented in our March 14, 1989 Groundwater Study Report for the subject project. At the time of our telephone conversation, you agreed with the proposed location for the monitoring well presented in the above referenced report. However, you stated that additional monitoring wells may be required based on the results of chemical analyses on groundwater samples collected from this monitoring well.

In addition, you requested that the following changes be made to the recommendations presented in the Groundwater Study Report:

1. Monitoring Schedule - The monitoring well shall be sampled and analyzed on a quarterly basis for a period of one (1) year. Water samples would be analyzed as recommended in the Groundwater Study Report. Copies of the chemical analyses will be forwarded to the Hazardous Materials Division for review.
2. Monitoring Well Abandonment - The monitoring well would be abandoned at the conclusion of the monitoring period in conformance with regulatory requirements. Prior approval from the Alameda County Health Agency - Hazardous Materials Division will be required prior to abandonment of the monitoring well.

If you have any questions regarding the above, please contact the undersigned.

Sincerely,
AQUA RESOURCES INC.

Mark Milani, P.E.
Project Manager
