

Risk Assessment Guidance for Superfund
Vol. 1 - Human Health Evaluation Manual
Part A - Interim Final EPA/540/1-89/002
~~She also had a reference 12-89~~
on an EPA doc re: Risk Asses.
She also said she has an
NTIS reference doc #. I happen
to know from personal experience
that NTIS charges money (not cheap)
for their publications. It would
be better to get the doc via EPA → free
Any way please call her

PEA process is geared to small
parcels to be developed. Starting
next year, state will take more
integrated approach - more
review along the way with more
reporting along the way.

City's program may not be looking
for all the same criteria as DHS.
Land Use Permits ^{from City} may not be issued
until sign off is done by DHS

DHS - 15 hours free review (at local's
request - not RPS)

Recommended work follow PEA guidelines
not req'd to CC DHS at this time.

PCA is a voluntary exercise unless there
