

12/29/88

The attached info was communicated, by phone, to Kelly Kline, O.T.I., Consultant for Bay Center on December 29, 1988. He will get additional info together and submit asap. I will review upon receipt, ~~and~~ <sup>and</sup> ~~make~~ <sup>make</sup> effort toward processing ~~the~~ permit.

Imp. → Previous analysis shows that many constituents in the groundwater are non volatile (ie naphthalene, p-xene, Fluorene etc.). How are they going to remove them?
