

5-16-90

Kaiser - 280 W. MacArthur, Oakland
Reviewed plan "Site Characterization Report
Mineral Spirits in Soil". May 8, 1998
prepared by Geomatrix.

- Need:
- ① Copy of Site Safety Plan
 - ② Copy of Workman's Compensation
Insurance for Kaiser
 - ③ Copies of all ^{imported} soil disposal manifests.

5-17-90

Reviewed plan w/ Larry Seto -
need #①, ②, ③ from above plus
④ after excavation - confirmatory samples
taken every 200 sq ft.

- ? < ⑤ Sample stockpile every 50 cu yds. >
⑥ Field analysis - are for screening only
needed laboratory analysis from
certified lab.

* Confirmatory samples for ?
B-7? B-12, B-18, B-27-32

* Scan analysis for
MB-1, 2, 3, 13, 14, 16, 17, 24 ?

- ⑦ How soon the report for PCP contamination
will be issued?

Talked to Ken Ayers (Kaiser) - needed above
mentioned information before Phase 1 is

Cont.

To start. He asked Delta Fabbre (957-9557) (Kromatrix) to call regarding info.

Delta Fabbre - said disposal site will be changed. Forward, Inc. is currently shut down, will be disposing in Nevada so she said that sampling stockpile is not necessary. They have done a Scan Analysis from soil samples taken from "Phase I" area to be excavated.

Plan is OK contingent to:

- ① Letter informing County that disposal site has changed - name of new disposal site
- ② Sampling every 200 sq ft
- ③ Submission of site safety plan
- ④ ? " of Workman's Compensation Ins.

5-20-90

Ken Ayres called. For the ^{Workman's} Compensation Ins. & carrier will deliver letter, lab. analysis & site safety plan.
