SUBJECT: Sherwin-Williams Project; Change of name of organization, location address, mailing address, phone and fax numbers

During our recent Consultative Work Group meeting, I announced that we would now be handling the Sherwin-Williams project, on behalf of the 45th Street Artists' Cooperative, under the our newly formed nonprofit organization known as the California Environmental Research Group or CERG. The Toxics Assessment Group [TAG] is still alive and well. While I continue to be the President of TAG, my position with CERG will be as Principal Analyst. Please address all future correspondence relative to the Sherwin-Williams site to the California Environmental Research Group.

Location Address: 926 "J" Street, Suite 617, Sacramento, California 95814 [change]
