Subject: RE: Schwabacher-Frey Site - Investigation Report

Joy,
Thanks. Good data and quick to digest.

I've several probably minor requests to hopefully move the case towards closure. To keep it simple these items could be provided as a site investigation addendum, so the report can stand unaltered. Alternatively it can be modified with the data, as they are a standard submittal to all reports. The details:

- The report states that the drilling permits and well completion reports are attached to Attachment 1 of the report. Only the permits were attached, and they likely will help support the closure.
- I did not locate analytical for bore P5, and will need it to document the site fits the Low Threat Closure Policy. I did a search and tabbed through pretty much all the lab sheets. Perhaps it was labeled as something else?

I can send a formal letter requesting these items if needed, but this seemed to be the simplest and fastest at this point.

Let me know how you'd like to proceed.

Thanks,

Mark,

No worries. See below for a download link. I've also attached an email that I sent you with the DTSC project manager contact info for the 5679 Horton Street site to discuss if DTSC will be the lead agency for the Horton Street UST that was assigned to the 5679 Horton Street address.

Please let me know if you have any questions.

Joy

Subject: RE: Schwabacher-Frey Site - Investigation Report

Joy,
The end of last year was a difficult period of time and I am still discovering sites that got overlooked for various reasons. This is one, and it is apparently apropos for the site.

Is it possible to get a copy of the document, or the document link, listed below?

Per our standard request (see attachment), both the work plan and the site investigation documents should be submitted to both Geotracker and to the County ftp site (i.e. submitted to the state and to the county). ACDEH requests that the ftp PDF be unsecured. We'll secure it before it goes on the county website. Let me know if you have any questions.
Thanks,

Subject: Schwabacher-Frey Site - Investigation Report

Mark,

See below for the link to download the Investigation Report for the Schwabacher-Frey Site, which is being submitted pursuant to your 3/6/15 meeting with the City of Emeryville as the Successor Agency to the Emeryville Redevelopment Agency ("Successor Agency"), Ken Schmier, and EKI. This investigation was conducted as part of investigations conducted in the vicinity of the Schwabacher-Frey Site on behalf of the Successor Agency.

Please let me know if you have any difficulties downloading the file.
