Cary,

I just spoke with Dilan Roe (Alameda County) regarding the subject property and the project moving forward. Dilan and I would like to meet, in person, to discuss in more detail, the technical aspects of the case and develop a common understanding of the site conditions in order to evaluate the next step.

In order for Dilan and I to hold the technical meeting without you being present, she requires that you authorize the meeting by replying to this e-mail.

Please let me know if you have any questions. Thank you and have a great weekend.

Sincerely,

Dilan,

I want to bring the senior geologist (Steve Carter) that was working on this case before I took it over as PM; he has a good understanding of the site geology and history. We will bring cross sections and all of the historical data I can dig up. I am also asking DWR for the well driller's reports for the area in order to research possible pumping influences.

We are available to meet during the late morning on July 27th (preferred) and either during the late morning or early afternoon of July 31st. Please let me know if any of these dates times works for you. Thanks again.

Sincerely,
