Re: **Quarterly Status Update Report – Second Quarter 2011**
6310 Houston Place, Dublin, California 94568
ACEHS Case No. RO0002862, GeoTracker ID T0600113164

Dear Mr. Khatri:

Stratus Environmental, Inc. (Stratus) is submitting the attached report, which presents an update of work performed during the second quarter 2011 on behalf of Mr. Cary Grayson for the facility located at 6310 Houston Place, Dublin, California. Stratus representatives, whose signatures appear below, declare under penalty of perjury, that the information contained in the attached report are true and correct to the best of our knowledge.

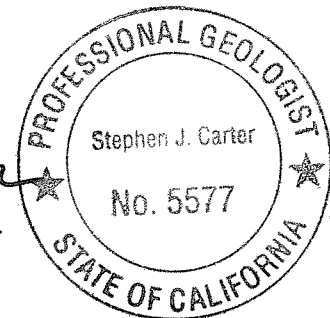

If you have any questions regarding this project, please contact Mr. Kasey Jones at (415) 516-0373.

Sincerely,

STRATUS ENVIRONMENTAL, INC.

Kasey Jones
Project Manager

Stephen J. Carter, P.G.
Senior Geologist

Attachment: Quarterly Status Update Report, Second Quarter 2011

cc: Mr. Cary Grayson (via email carygrayson@gmail.com)

QUARTERLY STATUS UPDATE REPORT

Facility Address: 6310 Houston Place, Dublin, California 94568
 Consulting Co. / Contact Person: Stratus Environmental, Inc. / Kasey Jones
 Consultant Project No: 2094-6310-01
 Primary Agency/Regulatory ID No: Paresh Khatri, Alameda County Environmental Health Department
 ACEHD Case No. RO0002862

WORK PERFORMED THIS QUARTER (Second Quarter 2011):

1. Based on correspondence from ACEHD, dated July 27, 2009, the frequency of groundwater monitoring and sampling for all wells has been reduced to semi-annual (1st and 3rd quarters). No groundwater monitoring or sampling was conducted during second quarter 2011.
2. In a letter dated June 9, 2011, ACEHD reviewed Stratus' "Pilot Test Results Report", dated February 24, 2011, and requested that additional post-remediation groundwater sampling be conducted prior to closure consideration. In a June 14, 2011 telephone conversation between ACEHD and Stratus, ACEHD agreed that this site would be considered for low-risk closure after the first quarter 2012 post-remediation monitoring event, if the post-remediation chemical analytical data continued to demonstrate conformance with the trends predicted in the "Pilot Test Results Report."

WORK PROPOSED FOR NEXT QUARTER (Third Quarter 2011):

1. Stratus conducted the third quarter 2011 semi-annual post-remediation monitoring sampling event on July 5, 2011. During this event, all groundwater monitoring wells at the site were gauged, purged and evaluated for the presence of free product. Groundwater samples were collected and forwarded to a California state-certified analytical laboratory for analysis. Stratus is currently preparing the third quarter 2011 semi-annual post-remediation groundwater monitoring report.

Current Phase of Project: Post-remediation Monitoring
 Frequency of Groundwater Monitoring and Sampling: All Wells = Semi-annual (1st and 3rd)
 Groundwater Sampling Date: (None during 2Q11)
 Is Free Product (FP) Present on Site: No
 Approximate Depth to Groundwater: (Not measured during 2Q11)
 Groundwater Flow Direction / Gradient: (Not measured during 2Q11)

ATTACHMENTS: *None*
