WORK PERFORMED THIS QUARTER (Fourth Quarter 2011):

1. Based on correspondence from ACEHD, dated July 27, 2009, the frequency of groundwater monitoring and sampling for all wells has been reduced to semi-annual (1st and 3rd quarters). No groundwater monitoring or sampling was conducted during fourth quarter 2011.

During this event, all groundwater monitoring wells will be gauged, purged, evaluated for the presence of free product and sampled. Groundwater samples will be forwarded to a California state-certified analytical laboratory for analysis.
2. If petroleum hydrocarbon concentrations continue to decrease, Stratus will prepare a Request for Site Closure.
