End: Wed 11/14/2007 4:30 PM
Duration: 0 hours

Peter McIntyre, AEI

He is calling on behalf of RP to inform us that 3-4 weeks ago did indoor air sampling in Montessorri School, had PCE detections.

detections 3x the residential land use

detection of PCE outside were lower than inside

they will talk with the school this afternoon

Told him they need to submit the data to us ASAP.

Need to attend meeting tomorrow & inform school of work performed & needing to be performed

Why did they only do the indoor air sampling & not the rest of the work? RP decided this was the work they wanted implemented. Told him he has data, but data that is insufficient to evaluate the risk.

We need to talk to Bruce Burrows, he gave us his contact # 925-788-5213
