No. Can Garza claim the site? Also, if they already have a claim number, I think they should have transferred it to your client so your client can be reimbursed.

Barbara, when the site belonged to Garza and Associates, it appears that they took out a geotracker number. Do we have to establish a separate number? Norm

Norm,

According to Geotracker, the site has not yet been claimed. Your client will receive a notice of violation in mid July, if it is not claimed at that time. If this is in error please let me know, otherwise, please help your client claim the site as soon as possible.

Regards,

Barb Jakub

Norm,

As of this week, it appears that the site Garza and Associates is unclaimed in Geotracker. Can you please help your client claim the site and upload the recent reports to Geotracker?

Thank you,

Barbara Jakub, P.G.
